Dear Dr. Wagner:

Thank you for your letter and research proposal. I did review the information you sent me and I appreciate the time you have taken to research this issue and propose this idea to the Medical Board of California. However, requiring physicians to answer specific questions in conjunction with license renewal would require a change in statute.

A change to the statute would require legislation. I would recommend that you contact the Senator or Assembly Member that represents your district to discuss your proposal. This information can be found on www.leginfo.ca.gov. Please contact me at (916) 263-2389 if you have any questions or if you need additional information.

Sincerely,
